OFFICE OF LEGISLATIVE COUNSEL

Thursday - 22 June 1967

25X1 1. [ ] At her request, met with Dorothy Fosdick, Staff Director of the Senate Subcommittee on National Security and International Operations. Miss Fosdick said the Subcommittee would like to do another publication similar to the one entitled "The Soviet View of NATO - Speech by Leonid I. Brezhnev, April 24, 1967." The new publication would be entitled "NATO and European Security: Communist Views." Miss Fosdick said they would like to include in addition to Kosygin's address to the General Assembly on 19 June, Brezhnev's speech on 10 May and any other pertinent items. She suggested that Yugoslavia and Poland be included. I told her we would look into this and be back in touch with her.

25X1 2. [ ] George Murphy, Joint Committee on Atomic Energy staff, said that there was considerable interest on the part of the members and staff to have someone (he specifically mentioned Dr. Chamberlain or [ ] brief the staff on the situation with respect to the recent Chinese nuclear test as soon as definite information is available. He said our memo on the test had satisfied them temporarily but that they would be interested in being brought up to date as soon as information was available. He added that quite possibly before Congress adjourns for the 4th of July recess, the Committee might like to have Mr. Helms brief the full Committee. Murphy said he was not making a specific request at this time but was merely alerting us to this possibility.

25X1 3. [ ] Bernard Waters, in the office of Senator Everett Dirksen, called to advise that the Senator has discussed S. 1035 with Senator Ervin. Apparently Ervin is remaining somewhat adamant about not exempting CIA from the bill. However, Dirksen plans to speak with him further and suggests that we might consider further steps on our own.
